Summary of Oil and Gas Lease Auction

On behalf of the Board of University and School Lands (Board), the Department of Trust Lands conducted an oil and gas lease auction on www.energynet.com which concluded on May 4, 2021.

There were 63 tracts offered, and all received competitive bids (if the Board does not receive a competitive bid, the lease is awarded to the nominator). The highest bid per acre was $351.00 in Burke County (20 acres for a total of $7,020.00). 40 tracts offered benefit the Common Schools Trust Fund; 20 tracts benefit the Strategic Investment and Improvements Fund (SIIF); and one tract benefits the School for the Blind Trust Fund.

April Unclaimed Property Report

Unclaimed property is all property held, issued, or owing in the ordinary course of a holder’s business that has remained unclaimed by the owner for more than the established time frame for the type of property. It can include checks, unpaid wages, stocks, amounts payable under the terms of insurance policies, contents of safe deposit boxes, etc.

An owner is a person or entity having a legal or equitable interest in property subject to the unclaimed property law. A holder can include a bank, insurance company, hospital, utility company, retailer, local government, etc.

Since 1975, the Unclaimed Property Division (Division) of the Department of Trust Lands (Department) has been responsible for reuniting individuals with property presumed abandoned. The Division acts as custodian of the unclaimed property received from holders. The property is held in trust in perpetuity by the State and funds are deposited in the Common Schools Trust Fund. The 1981 Uniform Unclaimed Property Act created by the national Uniform Law Commission was adopted by the State in 1985.

For the month of April 2021, the Division received 331 holder reports with a property value of $1,408,881 and paid 228 claims with a total value of $582,520.

The Department has engaged Marketing & Advertising Business Unlimited, Inc. (MABU), a full-service management, marketing and multimedia production company, to aid the Department in developing and deploying a strategic communications plan surrounding changes to N.D.C.C. ch. 47-30.1 as a result of the passage of Senate Bill 2048 during the Sixty-seventh Legislative Assembly.

The Financial Report (Unaudited) for period ending February 28, 2021 was presented to the Board for review and is available at the Department upon request.

Information Technology Project Status Update

The Department of Trust Land’s (Department) 2017-2019 biennial budget appropriation includes $3.6 million to replace legacy information technology (IT) systems as authorized by Senate Bill 2013 of the Sixty-fifth Legislative Assembly.

Severe limitations in the current IT system, including redundant manual processes, have hampered efficiencies. Many of the Department’s core data management systems were developed in the 1980s and 1990s, using designs and tools no longer supported by vendors. Some supplemental system improvements and purchases have been implemented; however, the outdated database structure restricts many potential improvements.

On April 29, 2019, the new system for Unclaimed Property was successfully launched.

On July 1, 2020, the new Financial Management and Accounting system was successfully launched.

On September 14, 2020, the Revenue Compliance Division successfully launched the migrated and updated software system.

The Surface Land Management System is tentatively scheduled to go-live on August 14, 2021. MABU, a full-service marketing and communications company, has been hired to aid the Department in communication efforts to constituents who will be impacted by the implementation of the new system.

Additional capital funding was approved through Senate Bill 2013 to support the implementation of software for the Minerals Division. A kick-off for the implementation of the new software is scheduled for August 16, 2021.

Repayment of Unpaid Royalties Report

Since the March 25, 2021, Board of University and School Lands meeting, three payors have come into compliance for gas deductions: True Oil, Prima Exploration and Liberty Resources.

INVESTMENTS

March Investment Reports – 1st Quarter 2021

Josh Kevan from RVK will review the performance of the Board of University and School Land’s (Board) investment program for the period ending March 31, 2021 and discuss current market conditions.

The first report to be reviewed was prepared by RVK to enable the Board to monitor and evaluate the collective performance of the permanent trusts’ investments and the performance of individual managers within the program. In order to provide an overview of the program and highlight critical information, an executive summary has been incorporated into the Board report.

The second report shows the performance of the Ultra-Short portfolio in which the Strategic Investment and Improvements Fund, the Coal Development Trust Fund and the Capitol Building Fund are invested.

RVK Permanent Trust Fund Performance Analysis and RVK Ultra-short Performance Report materials were provided to the Board and are available from the Department upon request.
SURFACE

Preliminary Sales approval – East Bismarck Tract (Burleigh County: 10 acres more or less in the northwest corner of section 36-Township139 North, Range 80 West)

On April 26, 2012, the Board of University and School Lands (Board) authorized the first step in selling the East Bismarck tract by completing a market analysis.

1) **Marketability Study/Property Analysis**: An analysis of the likely sales of a specific type of real estate product.
2) **Market Analysis**: A study of the supply and demand conditions in a specific area for a specific type of property or service.

The Marketability Study and Property Analysis (Attachment 1) was completed and presented to the Board at the June 2013 meeting. Two important observations from the study were:

1) “Currently, there is high interest in commercial and industrial development in the Bismarck-Mandan area. Some development experts have been inundated with inquiries; however, they anticipate the increased interest and development will continue for the next two to three years and then decrease...” Page 10.
2) “Industrial land has been and remains in short supply...Large tracts of industrial land in the 20–50 acre size category are especially hard to locate in the Bismarck-Mandan metropolitan area ...” Page 10.

Based on the results of this study, it appears that the land along the west and south boundaries of section 36 would be most in demand. Based on surrounding land use and the location of the transmission lines, this property will most likely be developed for light industrial or commercial uses.

With the completion of the Marketability Study/Property Analysis and discussions with local officials concerning possible public uses for Section 36, the Board approved the Commissioner to proceed with the second step, the Real Estate Market Analysis, at the June 2014 meeting. At the October 2015 Board Meeting, KLJ presented the Real Estate Market Analysis (Attachment 2) and recommend sale parcel locations and sizes based on demand and current market conditions.

There has been development on the East Bismarck tract, at the Board’s August 2015 meeting the Board was informed that Central Power Electric Cooperative Inc. had submitted an application to purchase approximately 15 acres under N.D.C.C. Chapter 15-09, to develop an electric substation, outpost building and laydown yard. The property is located east of the Capital Electric Cooperative and MDU substations.

Two appraisals were completed as follows:

- Burleigh County Appraisal $100,000/acre
- Point Value Appraisal $109,000/acre

The Burleigh County Appraisal was comprised of three comparable sales while the Point Value Appraisal was comprised of the same three sales, plus six additional comparable sales in the area. The Point Value appraisal is well-documented and based on nine commercial development sale properties it is an accurate reflection of true commercial property values. Central Power Cooperative has received a copy of the Point Value appraisal.

NCCC § 15-09-04 states:

“The board of university and school lands may sell the property described in the application to the applicant at a price not less than the appraised value if the board concludes that the land described in the application is required for the purposes stated in such application and that a conveyance of the property is consistent with this title and the fiduciary responsibilities of the board. If the land described in the application is less than an entire tract, the board, in fixing the price at which such partial tract will be...
conveyed, shall take its value into consideration together with all detriment caused to the remaining portions of the tract by the conveyance of the partial tract.”

The Board approved the appraised value of $109,000 per acre for the 15 acres of land within Burleigh County, Township 139 North, Range 80 West, Section 36: SW4 required for public purposes and authorized the Commissioner to advertise the proposed sale, conduct a public hearing, and complete the sale to Central Power Cooperative on the Board’s behalf.

The sale of a 15-acre parcel to Central Power Cooperative, Inc. left 107 acres more or less in the SW4 of section 36.

The Board has received a second application for the purchase of approximately 10 acres more or less in the NW4 Section 36, T139N, R80W, Burleigh County for expansion of a private business. Per N.D.A.C. 85-04-07-01. Sale of original grant lands.

The board shall retain and manage original grant lands to produce revenue consistent with the long-term maintenance of the original grant lands’ income producing potential and ecological health. The commissioner may propose, or accept letters of application for, the sale of original grant lands after the original grant lands have been evaluated by the commissioner for "highest and best use" as defined in North Dakota Century Code section 15-02-05.1 and the department considers the following criteria:

1. If the tract has been zoned or has high potential to be zoned residential, commercial, or industrial;
2. The tract's potential for mineral development, including sand, gravel, clay, and scoria;
3. If the tract has been a source of persistent management problems, resulting in the sale of the tract being prudent from a long-term financial point of view;
4. If the tract and adjacent trust land tracts total less than eighty acres [32.37 hectares] in size, more or less, for grassland and less than forty acres [16.19 hectares], more or less, for cropland or hayland, except those tracts which are severed by a highway, road, railroad, canal, river, or lake, which may be sold if the severed portion is less than these amounts; or
5. If the tract and adjacent trust land tracts exceed eighty acres [32.37 hectares] in size, more or less, for grassland or more than forty acres [16.19 hectares] in size, more or less, for cropland.

Per N.D.A.C. 85-04-07-03, the Department has received a letter of application for purchase of original grant lands from Swenson RV. This letter has been submitted to the Commissioner for preliminary approval or rejection and it was approved. The Commissioner has provided preliminary approval of the land sale.

The Department received three appraisals:

- Point Value Appraisal & Consultation $200,000 per acre
- County of Burleigh $116,666 per acre
- Dakota Appraisal & Consulting, LTD. $90,000 per acre

The Department staff consulted with various industry experts and determined, based upon the comparables listed in each appraisal and the previous sale price of land in the same section, the appropriate land value is $110,000 per acre.

Per N.D.A.C. 85-04-07-03. Sale procedure.

Upon a determination that the application covers a tract the board is willing to see, the department shall post on the department’s website a notice of the application for sale, any supporting documentation, and instructions for submitting public comments. The department also shall publish notice of a letter of application for sale in the official newspaper of the county where the nominated tract is located and in the Bismarck Tribune. Notice must be published once each week for three consecutive weeks prior to the deadline for comments. The notice must contain the legal description of the proposed tract and the deadline for comments.

(05/25/21)
Motion: The Board authorizes the Commissioner to post the sale of Burleigh County: 10 acres more or less in the northwest corner of section 36-Township139 North, Range 80 West for public comment.

OPERATIONS

Board of University and School Lands Code of Ethics Policy Manual

The Board of University and School Lands (Board) currently has a Policy Manual (Board Policy Manual) which includes sections titled Governance, General, Surface Land Management, Investments, and Minerals. The Department recommends the Code of Ethics Policy be repealed due to establishment of the North Dakota Ethics Commission under North Dakota Constitution Article XIV in 2019. In addition, Chapter 54-66 of the North Dakota Century Code governs ethical considerations of public officials, together with the Administrative Rules of the North Dakota Ethics Commission (which is not an administrative agency) found in Title 115 of the North Dakota Administrative Rules.

Due to the constitution, statutes, and administrative rules in place to address these ethical issues, the Commissioner is requesting the Board provide input on the proposed repeal of the Board of University and School Lands Code of Ethic Policy. This is the “first reading” of the proposed repeal, with suggestions being taken into consideration and a “second reading” to occur on June 24, 2021.

The Board of University and School Lands Code of Ethics Policy first reading was provided to the Board and is available at the Department upon request.
