Independent Auditor’s Report

Governor of North Dakota
Legislative Audit and Fiscal Review Committee

Board of University and School Lands
Bismarck, North Dakota

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Board of University and School Lands, a department of the State of North Dakota, as of and for the years ended June 30, 2012 and 2011, which collectively comprise the Board of University and School Lands’ basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Board of University and School Lands’ management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the Board of University and School Lands, are intended to present the financial position and the changes in financial position of only that portion of the governmental activities, each major fund, and the aggregate remaining fund information of the State of North Dakota that is attributable to the transactions of the Board of University and School Lands. They do not purport to, and do not, present fairly the financial position of the State of North Dakota as of June 30, 2012 and 2011, and the changes in its financial position, where applicable, and the appropriations for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Board of University and School Lands as of June 30, 2012 and 2011, and the respective changes in financial position and the respective statement of appropriations for the years then ended in conformity with accounting principles generally accepted in the United States of America.
Subsequent to the issuance of the North Dakota Board of University and School Lands 2012 financial statements and our report dated October 31, 2012, material modifications were made to the financial statements. The modification and the reason for the re-issuance are stated in Note 24. In our original report we expressed an unqualified opinion on the 2012 financial statements, and our opinion on those financial statements, as expressed herein, remains unqualified.

In accordance with Government Auditing Standards, we have also issued our report dated October 31, 2012, on our consideration of the Board of University and School Lands’ internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America required that the management’s discussion and analysis on pages 3 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board of University and School Lands’ financial statements as a whole. The combining fund statements are presented for purposes of additional analysis and are not a required part of the financial statements. The combining fund statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Bismarck, North Dakota
October 31, 2012, except for the items detailed in Note 24 of the financial statements which is dated December 13, 2012.
As management of the Board of University and School Lands (Board), our discussion and analysis of the Board's financial performance provides an overview of the financial activities for the fiscal years ended June 30, 2012, 2011 and 2010. Please read it in conjunction with the basic financial statements, which follow this discussion.

Financial Highlights

- The assets of the Board exceeded its liabilities as of June 30, 2012, 2011, and 2010 by $2,611,026,612, $2,057,670,194, and $1,529,337,219, respectively.

- The Board's net assets increased by $553,356,418 for the year ending June 30, 2012, by $528,332,975 for fiscal year 2011, and by $520,731,700 for fiscal year 2010.

- Royalty revenues totaled $125,932,217 during fiscal year 2011, an increase of $38,530,159 over the $87,402,058 earned in fiscal 2010. Royalty revenues totaled $203,791,379 in fiscal year 2012, an increase of $77,859,162 over the amount earned in fiscal year 2011. These increases are due to the large number of new oil and gas wells placed into production over the past few years.

- Bonus revenues totaled $173,584,432 in fiscal year 2011, a decrease of $120,462,103 from the $294,046,535 received in fiscal year 2010. Bonus revenues totaled $125,466,546 in fiscal year 2012, a decrease of $48,117,886 when compared to fiscal year 2011. These decreases are due to the fact that most mineral acres in prime Bakken areas are already leased and much of the new acreage being nominated for lease auction is now outside prime Bakken areas.

- Oil extraction tax received by the Common School Trust fund totaled $49,391,903 in fiscal year 2011, an increase of $21,030,629 over the $28,361,274 received in fiscal year 2010. Oil extraction tax received in fiscal year 2012 totaled $81,949,837, an increase of $32,557,934 over fiscal year 2011. These increases are due to the substantial increase in oil production over the past two years.

- No gross production tax revenues were received by the oil and gas impact grant fund in 2011, which is a decrease of $8.0 million from the amount received in 2010. A total of $100.0 million of gross production taxes were deposited into the oil and gas impact grant fund during 2012, up $100.0 million from 2011. The reason for the 2011 decrease is that the oil and gas impact grant fund reached its biennial cap of $8.0 million in 2010, so no further funds were deposited during 2011. The large increase in gross production tax revenues in 2012 is a result of the legislature raising the cap on funds to be deposited into the oil and gas impact grant fund to $100.0 million for the 2011-13 biennium.

- Investment income totaled $51,436,556 during fiscal year 2011, an increase of $1,936,130 over the $49,500,426 of investment income earned in fiscal year 2010. Investment income totaled $53,294,173 in fiscal year 2012, an increase of $1,857,617 over fiscal year 2011. This increase in investment income is the result of a steady growth of assets invested in fixed income securities over the past two years.

- The change in fair value of investments, otherwise known as capital gains, totaled $193,932,630 in fiscal year 2011, an increase of $100,504,793 over the $93,427,837 of gains earned in fiscal year 2010. Net capital gains totaled $101,448 in 2012, a decline of $193,831,182 from fiscal year 2011. The primary reason for the fiscal year 2011 increase is that the Board's equity portfolio returned almost 30% in 2011, as compared to a return of 18.25% in 2010. A combination of negative equity
markets and positive bond markets resulted in very little change in the fair value of investments during fiscal year 2012.

Overview of the Financial Statements

This report consists of four parts – management's discussion and analysis (this section), the basic financial statements, required supplementary information, and a section that presents combining statements for non-major government funds. The basic financial statements comprise of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-Wide Financial Statements. The government-wide financial statements provide broad information about the Board's financial condition.

The statement of net assets presents information on all assets and liabilities managed by the Board with the difference between the two reported as net assets. Changes in net assets may at times, serve as a useful indicator of whether the financial position of the Board is improving or deteriorating.

The statement of activities presents information showing how the net assets managed by the Board changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Fund Financial Statements. A fund is a grouping of related accounts used to maintain control of resources that have been segregated for specific objectives. The Board uses fund accounting to provide a relevant financial statement format for users and to demonstrate compliance with constitutional and legislative requirements. All of the funds of the Board are governmental funds.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the Common Schools Trust fund, Coal Development Trust fund, Department of Trust Lands General fund, Oil and Gas Impact Grant fund, and the Strategic Investment and Improvements fund. Data from the other fourteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these is provided in the combining statements immediately following the notes to the financial statements.

The Board is appropriated a biennial budget from the North Dakota Legislature for its Department of Trust Lands General fund. A budgetary comparison statement has been provided to demonstrate compliance with this budget.

Notes to the Financial Statements and Other Information. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

As noted earlier, changes in net assets may at times serve as a useful indicator of the Board’s financial position. As of June 30, 2012, the Board’s total net assets were $2,611,026,612. As of June 30, 2011
and 2010, the Board's total net assets were $2,057,670,194 and $1,529,337,219, respectively. The largest portion of the Board's net assets is represented by investments in financial securities. The Board uses these net assets to provide distributions to educational entities and general government.

The following is a comparative statement of net assets:

Net Assets:

Net assets invested in capital assets | 7,744,562 | 7,787,398 | 7,788,963

Restricted net assets

Nonexpendable | 64,342,175 | 63,224,476 | 62,225,366
Expendable   | 2,045,608,392 | 1,731,438,064 | 1,300,483,003

Unrestricted net assets | 493,331,483 | 255,222,256 | 158,839,867

**Total net assets** | 2,611,026,612 | 2,057,670,194 | 1,529,337,219

Total liabilities and net assets | $2,759,571,021 | $2,234,665,670 | $1,653,529,510

During fiscal year ending June 30, 2012, the Board’s net assets increased by $553,356,418. This increase was mainly due to a $524,948,187 increase in current and other assets and a $28,451,067 decrease in liabilities. The majority of the increase in net assets was due to changes in investments of $415,083,730, accounts receivable of $7,524,127, energy impact loans of $4,035,885 and due from other state agencies of $28,438,292.

During fiscal year ending June 30, 2011, the Board's net assets increased by $528,332,975. This increase was mainly due to a $581,137,745 increase in current and other assets and a $52,803,185 increase in liabilities. The majority of the increase in net assets was due to a change in investments of $588,438,138 and a change in security lending collateral of $50,788,346.
The following provides a comparative statement of the Board’s operations:

</table>
During the fiscal year ending June 30, 2012, the Board’s revenues decreased by a total of $3,159,668. Mineral lease revenue declined by $48,117,886 as a result of there being fewer minerals available for lease, while royalty revenues increased by $77,859,162 as leased minerals were placed into production. Oil extraction tax revenues increased by $32,557,934 due to increase oil production in the state, while gross production tax revenues increased by $124,129,807 as the cap for energy impact grants was increased over the previous biennium by $100,000,000. The increase in the fair value of investments declined by $193,831,182 from the previous year as capital markets did not produce the huge gains earned during the previous fiscal year.

During fiscal year ending June 30, 2011, the Board’s total revenues increased by $44,752,913 due to additional royalty revenues of $38,530,159 while bonus revenues decreased by $120,482,103 due to a decline of available minerals for lease; tax revenues increased by $20,882,696 due to additional extraction tax collections; and investment earnings increased by $102,440,923.

Financial Analysis of the Government’s Funds

As noted earlier, the Board uses fund accounting to ensure and demonstrate compliance with finance-related constitutional and legislative requirements.

Governmental funds. The focus of the Board's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Board’s financing requirements.

Capital Asset

The Board's capital assets for its governmental funds as of June 30, 2012, 2011, and 2010, are $7,744,562, $7,787,398, and $7,788,983 (net of accumulated depreciation for equipment) respectively. These capital assets include land and equipment. For additional details reference Note 13 – Capital Assets.

Economic Factors

The trust growth that occurred during fiscal year 2012 was driven primarily by oil and gas royalty and bonus payments and oil and gas tax revenue received as a result of the current oil plays in North Dakota. During fiscal year 2012, the trusts experienced low investment returns as compared to the prior fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Board’s finances for all those with an interest in the government’s finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the ND Department of Trust Lands, 1707 N 9th St., PO Box 5523, Bismarck, ND, 58506-5523.

Reference Financial Statement Note 18 for information on the Board's continuing appropriation authority of funding.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Statements and Reporting Entity

The Board of University and School Lands (Board) is an agency of the State of North Dakota. The Board was created under Article IX, Section 3 of the North Dakota State Constitution, and operates through the legislative authority of the North Dakota Century Code Chapters 15-01, 47-30.1, and 57-62. As a state agency, the Board is considered to be a department of the State of North Dakota and is included in the State's Comprehensive Annual Financial Report.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

For financial reporting purposes, the Board has included all funds and has considered all potential component units for which the Board is financially accountable, and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the Board's financial statements to be misleading or incomplete.

The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes appointing a voting majority of an organization's governing body and (1) the ability of the Board to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the Board. Based upon this criteria, there are no component units to be included within the Board’s statements and the Board is a reporting entity within the State of North Dakota as a reporting entity.

Fund Accounting Structure

The Board uses funds to report its financial position and the results of its operations. Fund accounting is designed to demonstrate constitutional and legislative compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund balance is classified on a hierarchy that shows, from the highest to the lowest, the level or form of constraints on fund balance and accordingly, the extent to which the Board is bound to honor them: nonspendable, restricted, committed and assigned.

The following fund types and funds are used to account for the Board's activities.

General Fund – include operating fund activities financed by the trusts that are legislatively assigned for specified purposes.

The Department of Trust Lands maintenance fund is used to pay operating expenses of the department. The Department of Trust Lands maintenance fund is the general fund.

Permanent Fund – report resources that are constitutionally committed for distribution purposes as described in Article X of the State Constitution and N.D.C.C. 57-61.
The Coal Development Trust fund receives a portion of the coal severance tax. The Trust transfers a portion of the coal severance tax to the lignite research fund for lignite research and clean coal projects as enacted by the legislative assembly for future distribution. As described in N.D.C.C. 15.1-36 and 57-62, the Trust also makes loans to coal development impacted counties, cities and school districts and low interest loans to school districts for new construction. Interest earned on monies from the Trust is distributed to the State general fund.

**Special Revenue Funds** - include fund activities financed by specific revenue sources that are constitutionally and legislatively restricted, committed or assigned to expenditures for specified purposes.

The Perpetual Education Trust funds account for all assets and proceeds as described in Section 11 through 19 of the Enabling Act of 1889, Article IX of the State Constitution and N.D.C.C. 15-01-02. The beneficiaries of the Common Schools Trust are publicly funded schools, grades K-12. Other beneficiaries of the Educational Trust funds are the North Dakota State University, School for the Blind, School for the Deaf, State Hospital, Valley City State University, Mayville State University, Youth Correctional Center, State School of Science, Veterans Home, and the University of North Dakota. Income from the assets held by the Ellendale Trust are allocated equally among Dickinson State University, Minot State University, Dakota College at Bottineau, School for the Blind, Veterans Home, State Hospital, and State College of Science. The benefits of the original grant to the School of Mines are distributed to the University of North Dakota. The Trusts own assets in the form of rangeland, producing and non-producing mineral interests, investment securities and an office building. The Common Schools Trust fund is also used to account for unclaimed property collected under the authority of N.D.C.C 57-62-05.

The Strategic Investment and Improvements fund (SIIF) accounts for producing and non-producing mineral interests formerly owned by the Bank of North Dakota (BND) and State Treasurer, and acres located under navigable streams, rivers, and lakes, which are owned by North Dakota as a sovereign state. The Trust receives revenues from mineral bonuses, mineral royalties and, with the passage of House Bill 1451 by the 2011 Legislature, a portion of the State’s share of gross production and oil extraction taxes once certain thresholds are met. In accordance with NDCC 15-08.1-08 the SIIF may be expended as the legislature may provide for one-time expenditures relating to improving state infrastructure or for initiatives to improve the efficiency and effectiveness of state government.

The Energy Infrastructure and Impact Office (formally the Energy Development Impact Office) provides grant assistance to counties, cities, school districts and other political subdivisions impacted by oil or gas development through the oil and gas impact grant fund. The program is funded with a percentage of the oil and gas gross production tax as enacted by the legislative assembly. In addition, the Energy Infrastructure and Impact Office administers’ the Flood-Impacted Political Subdivision Infrastructure Development Grants program by providing infrastructure development grants to flood-impacted political subdivisions. The program is funded with one-time State general fund moneys and expires June 30, 2013.

The Capitol Building Trust fund was created by the Enabling Act for the benefit of "public buildings at the capital...". The Trust receives revenues from mineral bonuses, mineral royalties and surface rental income.

The Indian Cultural Educational Trust "is established for the purpose of generating income to benefit Indian culture...". The Trust receives revenues from surface rental income.
The Board reports the Common Schools Trust fund, Coal Development Trust fund, Department of Trust Lands General fund, Oil and Gas Impact Grant fund, and Strategic Investment and Improvements Trust fund as major governmental funds.

Basis for Accounting

Governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the State generally considers tax revenues to be available if they are collected within one year of the end of the fiscal period.

All revenues in the perpetual funds except for taxes, tobacco settlement money and unclaimed property revenue are presented as program revenues.

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

Budgetary Policies and Procedures

The Board operates through a biennial appropriation provided by the State Legislature and other continuing appropriations. The Board prepares a biennial budget which is included in the Governor’s budget that is presented to the General Assembly at the beginning of each legislative session. The General Assembly enacts the budgets of the various state departments through passage of specific appropriation bills. Before signing the appropriation bills, the Governor may veto any specific appropriation, subject to legislative override. Changes to the appropriation are limited to Emergency Commission authorization, initiative, or referendum action. Unexpended appropriations lapse at the end of the biennium.

Due to the lack of a formal revenue budget, a Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual statement cannot be prepared as required by GAAP. In its place a Statement of Appropriations has been presented. The Statement of Appropriations has been prepared using the modified accrual basis and encumbrance accounting is not used.

Cash Deposits and Investments

Cash includes all funds deposited with the BND as well as certain funds deposited in The Northern Trust (TNT) Cash Pool at Northern Trust.

Investments are reported at fair value. All investment income, including changes in the fair value, is recognized in the statements of revenues, expenditures and changes in fund balance.

Cash for all funds is pooled and invested to the extent possible. Income earned from pooled investments is allocated to each of the funds based on the fund’s total contribution to the pool.
Accounts Receivable

Accounts receivable represents accrued amounts on royalty revenue and interest on investments not available on June 30, 2012 for funding of current operations. All receivables are considered collectible. A majority of the accrued royalty revenue is expected to be collected within the first 90 days following June 30, 2012. Interest is expected to be collected prior to June 30, 2013 when investments mature.

Claimant Liability

Claimant liability represents the value of property escheated to the Department of Trust Lands and expected to be repaid to the rightful owners or their heirs. Escheated property can be reclaimed into perpetuity thus is a liability for the amounts expected to be reclaimed and paid.

Capital Assets

Capital assets include land valued at historical cost or fair value; and equipment valued at historical cost or at estimated historical cost if actual cost is not available. Donated capital assets are valued at their estimated fair value on the date of donation.

All other capital assets with an original cost of $5,000 or more per unit and an estimated useful life in excess of one year are capitalized and reported in the applicable government activities columns in the government-wide financial statements in accordance with N.D.C.C. 54-27-21. Normal maintenance and repair costs that do not materially add to the value or extend the life of the asset are not capitalized.

Capital assets in Governmental Funds are recorded as expenditures in the funds used to acquire or construct them in the governmental fund financial statements. Capital assets, along with equipment accumulated depreciation and depreciation expense, are reported in the applicable governmental activities columns in the government-wide financial statements.

Land is not depreciated. Other capital assets are depreciated using the straight-line method over 3 to 10 years for all furniture and equipment.

Compensated Absences Payable

N.D.C.C. 54-06-14 allows employees to accrue annual leave at a variable rate between one and two days per month based on years of service. In general, accrued annual leave cannot exceed thirty days at each calendar year end. Employees are paid for unused annual leave upon termination or retirement.

Sick leave is accrued at the rate of one day per month without limitation on the amount that can be accumulated. Employees vest in sick leave at ten years of service at which time the State is liable for ten percent of the employee’s accumulated unused sick leave.

Assets of the maintenance fund are used to pay off these liabilities.
NOTE 2 - ORGANIZATION AND RELATED PARTY TRANSACTIONS

As stated in Note 1, the Board is an entity of the state of North Dakota and as such, other state agencies of the state and political subdivisions are related parties.

NOTE 3 – CASH

Custodial Credit Risk

State law generally requires that all state funds be deposited in the Bank of North Dakota. N.D.C.C. 21-04-01 provides that public funds belonging to or in the custody of the state shall be deposited in the Bank of North Dakota. Also, N.D.C.C. 6-09-07 states, "[a]ll state funds ... must be deposited in the Bank of North Dakota" or must be deposited in accordance with constitutional and statutory provision.

The carrying amount of deposits with the BND and Northern Trust as of June 30, 2012 and 2011 were $124,858,720 and $16,630,120 respectively and the bank balances were $18,755,833 and $7,418,074. These differences result from timing differences of deposits processed by the Bank at year-end. These deposits are exposed to custodial credit risk as uninsured and uncollateralized. However, these deposits held at the Bank of North Dakota are guaranteed by the State of North Dakota through N.D.C.C. Section 6-09-10. The Board does not have a formal policy regarding deposits.

NOTE 4 – FUND BALANCE CLASSIFICATION

The following fund balance classifications describe the spending constraints placed on the purpose for which resources can be used:

Nonspendable: this classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact as directed by legislation or the state constitution.

The Coal Development Trust fund was established by Article X of the State Constitution. This fund is held in trust and administered by the Board for loans to coal impacted counties, cities and school districts and for loans to other school districts. The Coal Development Trust fund balance includes the corpus (or principal) of this fund and the long-term portion of loans receivable, therefore is not in spendable form.

Restricted: this classification includes amounts for which constraints have been placed on the use of the resources either (a) imposed by the beneficiary of the assets or (b) imposed by law through constitutional provisions or enabling legislation.

The Common School and other Perpetual Education funds were created under the State Constitution to support school and public institutions. All revenue resources are restricted for the purpose of distributions to the beneficiaries.

The Capitol Building Trust fund was created under the State Constitution for the construction and maintenance of public buildings at the capital. The entire balance of the trust is subject to legislative appropriation each biennium.
The Indian Cultural Education fund was established for the purpose of generating income to benefit Indian culture. The Mandan, Hidatsa and Arikara Nation Cultural Education Foundation is responsible for disbursements of trust proceeds.

*Committed:* this classification includes amounts that can be used only for the specific purpose imposed by formal action of the legislative assembly or the Board.

The Coal Development Trust fund was established by Article X of the State Constitution. Any changes to the fund balance commitment would require a referendum and vote of the people of the State of North Dakota. Interest earned on the monies held in this trust will first replace uncollectable loans made from this trust, and any remaining balance will be transferred to the State general fund.

The Oil and Gas Impact Grant fund holds funds appropriated by the state legislatures to assist local political subdivisions in dealing with problems arising from oil and gas development. Any changes to the fund balance commitment would require an appropriation bill action of the legislative assembly.

The Strategic Investment and Improvements fund was established by legislation and consists of mineral acres formerly owned by the Bank of North Dakota and State Treasurer; minerals located under navigable streams, rivers, and lakes, which are owned by North Dakota as a sovereign state; and various financial assets. The balance of this fund is subject to appropriation by the legislature with the exception of any balance the Board identifies as assigned. Any changes to the fund balance commitment would require action of the legislative assembly to change the North Dakota century code or action by the Board to establish a different assigned fund balance.

*Assigned:* amounts in the assigned fund balance classification are intended to be used by the State or the Department of Trust Lands for specific purposes but do not meet the criteria to be classified as restricted or committed.

The Department of Trust Lands General fund was created under N.D.C.C. 15-03-01.1 and is available for paying operating expenses as appropriated by the legislative assembly. Any changes to the assigned fund balance would require an appropriation bill action of the legislative assembly.

The Strategic Investment and Improvements fund assigned fund balance was initially established by Board action in September 2010 when the Board voted to classify certain funds as a designated fund balance that should not be transferred out of the Strategic Investment and Improvements fund until potential title disputes related to certain riverbed mineral leases have been resolved. The legislature affirmed the Board action with the passage of House Bill 1451 in 2011. Any change to the assigned fund balance would require a vote of the Board or action of the legislative assembly.
Board of University and School Lands  
Notes to Financial Statements  
Fund Balance Classifications

Specific purposes have been mandated on the committed fund balance and assigned fund balance amounts managed by the Board. These fund balances are established by the North Dakota State Constitution and legislative assembly through referendum and vote of the people, and/or formal legislative action. These constraints can only be removed or changed by the same action.

The accompanying notes are an integral part of these financial statements.
NOTE 5 – INVESTMENTS

The Board’s investment policy is to invest Trust assets in a manner that balances the growth of the portfolio for the benefit of future beneficiaries with maintaining stable distributions to current beneficiaries. This is accomplished by investing in a widely diversified portfolio.

N.D.C.C. 15-03-04 requires that the Board apply the prudent investor rule in investing the funds under its control. Application of the prudent investor rule dictates that investments of the Board should be made using the same judgment and care that an institutional investor of ordinary prudence, discretion, and intelligence exercises in the management of large investments entrusted to it.

Investments

The following investments are reported at fair value, which represents stated market prices. Actual gains and losses realized by the Board will be determined at the time of the sale and will be based on market conditions at that date. Funds held by Northern Trust as of June 30, 2012 and 2011 are classified as investments in the accompanying financial statements as follows:

<table>

The Board holds other investments with a minimal risk since they are guaranteed by either the Federal government or the State of North Dakota. As of June 30, 2012, these investments included $323,147,808 in U.S. Treasury Bills and $23,475,000 in Bank of North Dakota certificate of deposits that will mature in less than one year. As of June 30, 2011, these investments included $219,872,221 in U.S. Treasury Bills and $23,475,000 in Bank of North Dakota certificate of deposits that will mature in less than one year.

In addition, the Board holds unclaimed mutual funds and other securities for owners. Actual gains and losses realized will be determined at the time of the sale and will be based on market conditions at that date. As of June 30, 2012 and 2011, respectively, the Board held $99,482 and $185,233 in unclaimed mutual funds and other securities.

Common Schools Trust Fund owns the building occupied by the Department of Trust Lands. For the periods ending June 30, 2012 and 2011, the book value of the building was $708,413 and $712,613, respectively. The book value of the building is included in the investments line of the balance sheet.
Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of investments. The Board manages its exposure by maintaining a diversified portfolio that contains a wide variety of maturity dates and credit ratings for the debt securities held. The Board has adopted an asset allocation schedule and approves the hiring of all managers within the various asset classes. The Board does not have a formal policy regarding the maturities of its investments.

The following tables show the investments by investment type and maturity at June 30, 2012 and 2011. The investments are shown by type, amount, and duration; and assume the call dates as the maturity dates.

The tables above include the fair value of inflation indexed bonds. The principal balances of these bonds are adjusted every six months based on the inflation index for the period.

Other investments included above, such as variable rate collateralized mortgage obligations (CMOs), have a high degree of sensitivity to interest rate changes. As of June 30, 2012 and 2011, respectively, the Board held $10,234,684 and $14,961,389 in variable rate CMOs.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Board maintains a diversified portfolio of debt securities encompassing a wide range of credit ratings. Each fixed income securities manager is given a specific set of guidelines to invest within based on the mandate for which it was hired. The guidelines specify in which range of credit, and to what extent within the ranges, the manager may invest. The Board does not have a formal policy regarding credit risk. The following table presents the Board's ratings as of June 30, 2012 and 2011, respectively.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The Board treats currency exposure in two different ways, depending on the type of investment. For the Board's international equity portfolio, the currency exposure is not hedged as currency exposure is one of the things that add diversity to the overall portfolio. In the case of foreign bonds, the Board fully hedges the currency exposure as the purpose of this portfolio is to generate more consistent returns. The Board does not have a formal policy regarding foreign currency risk. The Board's exposure to foreign currency risk is presented in the following tables:

### Derivative Securities

Derivatives are financial arrangements between two parties whose payments are based on, or "derived" from, the performance of some agreed upon benchmark. The investment policies of the Board allow the use of derivative securities to hedge or replicate underlying exposures but not for speculation. All derivatives are considered investment derivative instruments. The fair value of all derivative securities is reported in the Statement of Net Assets. At June 30, 2012 and 2011, the Board had one type of derivative security: currency forwards.

### Currency Forwards

Currency forwards represent forward exchange contracts that are entered into in order to manage the exposure to changes in currency exchange rates on the currency denominated portfolio holdings. A forward exchange contract is a commitment to purchase or sell a currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts is included in the net change in fair value of investments in the Statement of Changes in Net Assets with a gain of $8,500,011 for fiscal year 2012 and a loss of $13,214,156 in fiscal year 2011. At June 30, 2012 and 2011, the Board's investment portfolio included the currency forwards balances shown below.

**NOTE 6 – SECURITIES LENDING**

GASB Statement No. 28 "Accounting and Financial Reporting for Securities Lending Transactions," establishes accounting and financial reporting standards for securities lending transactions. The standard requires governmental entities to report securities lent as assets in their balance sheets. Cash received as collateral and investments made with that cash must also be reported as assets. The statement also requires the costs of the securities lending transactions to be reported as expenses separately from income received. In addition, the statement requires disclosures about the transactions and collateral related to them.

Securities are loaned versus collateral that may include cash, US government securities and irrevocable letters of credit. US securities are loaned versus collateral valued at 102% of the fair value of the securities plus any accrued interest. In all cases the borrower provides more collateral than the value of securities lent. Therefore, there is no credit risk related to security lending transactions. Non-US securities are loaned versus collateral valued at 105% of the fair value of the securities plus any accrued interest.

Non-cash collateral cannot be pledged or sold unless the borrower defaults.
All securities loans can be terminated on demand by either the lender or the borrower, although the average term of North Dakota Board of University & School Lands loans was approximately 98 days as of June 30, 2012.

Cash open collateral is invested in a short-term investment pool, the Core USA Collateral Section, which had an interest sensitivity of 39 days as of this statement date.

There were no violations of legal or contractual provisions, no borrower or lending agent default losses known to the securities lending agent.

There are no dividends or coupon payments owing on the securities lent. Securities lending earnings are credited to participating clients on approximately the fifteenth day of the following month.

Indemnification deals with the situation in which a client's securities are not returned due to the insolvency of a borrower and Northern Trust has failed to live up to its contractual responsibilities relating to the lending of those securities. Northern Trust's responsibilities include performing appropriate borrower and collateral investment credit analyses, demanding adequate types and levels of collateral, and complying with applicable Department of Labor and Federal Financial Institutions Examination Council regulations concerning securities lending.

The following represents the Board's balances related to securities lending transactions at June 30, 2012 and 2011. Securities lending collateral is invested in investment pools and is not exposed to custodial credit risk.

NOTE 7 – FARM LOAN POOL AND FARM REAL ESTATE

N.D.C.C. 15-03 authorizes the Board to invest in first mortgage farm loans. All purchased loans are credited to the pool and the investments, repayments, interest and income are credited to the various trusts in proportion to their participation. The pool is administered by the BND in accordance with standard banking practices, including executing all instruments on behalf of the Board and handling foreclosures. As of June 30, 2012 the non-current and current portions of the loans were $31,104,025 and $2,666,144 respectively. The same amounts as of June 30, 2011 were $37,061,741 and $2,877,439 respectively.

As of June 30, 2012 and 2011, the pool had net assets of $34,713,291 and $44,122,998 respectively. For the same period, the pool earned net income of $2,522,053 and $2,628,796.

The Board assumes ownership of all of the foreclosed properties pending disposition of the real estate. The foreclosed property is recorded in an account titled “farm real estate” at the lower of cost or estimate market. The Board foreclosed on one farm loan during fiscal year 2012, which was sold through auction during the same period.

NOTE 8 – ENERGY CONSTRUCTION LOAN PROGRAM

The Board approved participation in an energy construction loan program with the Bank of North Dakota for the purpose of new construction loans in areas of North Dakota impacted by oil development. The primary focus of the loan program is for multi-family housing and commercial loans. The Board will participate in up to 50% of a first mortgage at market rates, loans must be amortized over 20 years or less. The Board authorized the Commissioner to allocate up to $20,000,000 to this program. The Common School Trust fund is the only trust participating in this program.

The loan program meets the “exclusive benefit” rule, whereby any investment decision made must be for the sole benefit of the Common School Trust fund. The loan program is administered by the BND who charges an annual fee of one-half percent on all outstanding loans.
As of June 30, 2012 the non-current and current portions of the loans were $2,232,219 and $30,969 respectively. The same amounts as of June 30, 2011 were $885,864 and $87,600 respectively.

As of June 30, 2012 and 2011 the program had net assets of $2,389,734 and $1,027,394 respectively. For the same period, the program earned net income of $112,341 and $37,757 respectively.

**NOTE 9 - COAL WARRANTS**

The Board is authorized to make loans to coal development impacted counties, cities and school districts from the Coal Development Trust fund. A warrant is executed by the governing body as evidence of the loan. The loans bear interest at either six or three and three-fourths percent annually, depending on the loan date. The coal warrants are payable only from the borrowing entities share of coal severance tax payments and do not constitute a general obligation of the entity. No losses are anticipated on the warrants and an allowance has not been provided. As of June 30, 2012 the non-current and current portions of the loans were $7,908,185 and $529,555 respectively. The same amounts as of June 30, 2011 were $4,041,989 and $359,866 respectively.

**NOTE 10 - DEVELOPMENTALLY DISABLED FACILITY LOAN FUND PROGRAMS NO. 2 & NO. 3**

The Sixty-second Legislative Assembly repealed chapter 6-09.6 of the North Dakota Century Code relating to the developmentally disabled facility loan program. Senate Bill No. 2121, which became effective July 1, 2012, provided for the sale of loans and the transfer of proceeds to the Common Schools Trust fund. The actual sale of loans occurred on August 1, 2012. The Common Schools Trust fund will no longer provide funding for developmentally disabled facility loans.

**NOTE 11 - SCHOOL CONSTRUCTION LOANS**

N.D.C.C. 15-60-10 was enacted in 1993 authorizing the Board to fund low interest school construction loans from the Coal Development Trust fund. The outstanding principal balance of loans made from this fund may not exceed fifty million dollars.

A proposed construction project must be submitted and approved by the superintendent of public instruction. The application may be submitted before or after authorization of a bond issue in accordance with N.D.C.C. 21-03. The superintendent determines the loan amount, the term of the loan, and the interest rate to be paid. To be eligible for a loan, the school district must have an existing indebtedness equal to at least fifteen percent of the school district’s taxable valuation.

The interest rate discount on a loan must be at least one percent but cannot exceed two and one-half percent of the interest rate charged on comparable tax-exempt bond rates.

The Bank of North Dakota (BND) processes and services all loans. BND receives payments of principal and interest from the school districts and remits these payments to the Board for deposit in the Coal Development Trust fund. As of June 30, 2012 the non-current and current portions of the loans were $19,005,489 and $2,432,669 respectively. The same amounts as of June 30, 2011 were $23,682,648 and $2,738,262 respectively.
NOTE 12 - OFFICE LEASE COMMITMENT

The Board's administrative agent, the Office of Commissioner of University and School Lands (Department of Trust Lands) rents office space owned by the Common Schools Trust Fund. The Department of Trust Lands' commitment to rent its office space from the Common Schools Trust is continuous, with periodic adjustments made in accordance with acceptable management practices and market conditions. For the periods ending June 30, 2012 and 2011 rent of $46,537 and $11,889 was paid by the non-Common Schools Trusts funds.

| Net capital assets | $7,788,983 | ($1,062) | ($523)      | $7,787,398      |

Under the provisions of the Enabling Act, land was granted to the State for the support of the common schools and other institutions. Under Constitutional authority, no grant land may be sold for less than ten dollars an acre which is the value per acre used for balance sheet purposes. In fiscal year 2012, 41.36 acres were acquired and 78 acres were sold. In fiscal year 2011, 69.95 acres were acquired and 52.28 acres were sold.

All lands held by the Board are considered capital assets, except lands acquired through foreclosure that the Board intends to sell. Land is not depreciable according to GASB 34.

A total of $1,761 and $1,762 in equipment depreciation for fiscal years ending June 30, 2012 and 2011 was charged to the education fund.

NOTE 15 – PERPETUAL FUND DISTRIBUTION POLICY

According to Section 2 of Article IX of the North Dakota State Constitution, biennial distributions from the perpetual trust funds must be ten percent of the five-year average value of trust assets, excluding the value of lands and minerals. The average value of trust assets is determined by using the assets’ ending value for the fiscal year that ends one year before the beginning of the biennium and the assets’ ending value for the four preceding fiscal years. Equal amounts must be distributed during each year of the biennium.

Total Transfers $30,000,000 $53,194,226

$79,799,768

NOTE 17 – ASSIGNED FUND BALANCE

On September 27, 2012 the Board of University and School Lands classified $95,799,332 of the Strategic Investment and Improvements fund as an assigned fund balance for fiscal year 2012 financial statement purposes. This commitment was made by the Board to indicate that these funds should not be transferred out of this fund until potential title disputes related to certain riverbed leases have been resolved.

NOTE 18 – LITIGATION

The State is currently involved in litigation relating to mineral title ownership between the ordinary high watermark and ordinary low watermark, an area known as shorezone, along the Missouri River by Williston, North Dakota. Riparian landowners claim they own down to the ordinary low watermark, however, the State asserts that it is entitled to the bed of navigable rivers, like the Missouri, up to the ordinary high watermark. Resolving the dispute turns on the proper interpretation of state statute.

Brigham Oil & Gas v. State of North Dakota

On June 9, 2011, Brigham Oil & Gas filed a suit seeking resolution of a title question and asking the Court to require those asserting title to the minerals in the spacing unit southeast of Williston, to set forth and prove their claims. Brigham Oil & Gas named 83 defendants in its complaint, including the Board and the United States of America. On November 23, 2011, the United States was granted a dismissal on sovereign immunity grounds and the Court informed the parties that it was remanding the case back to state court. On March 5, 2012, defendant Kerry Hoffman filed an answer and crossclaim against the Board asserting claims of an unconstitutional taking of private property without just compensation. On March 26, 2012, the State filed a motion to dismiss the Kerry Hoffman’s crossclaim against the Board.

On March 22, 2012, the State filed a motion with the federal court asking that the federal court refer to the North Dakota Supreme Court the question about title to the shorezone. On June 7, 2012, the federal court issued an order remanding this case back to state court.

Reep et. al. v. State of North Dakota

On March 9, 2012, six plaintiffs filed a suit in state court requesting the court certify the matter as a class action asserting an unconstitutional taking of private property without just compensation. In an order dated July 16, 2012, the court denied the State’s motion to dismiss; however, the court agreed that the issue of ownership of shorezone should be resolved before the case moves forward.

Pursuant to a stipulation between attorneys for Stanford Reep, Kerry Hoffman, and the State, the court issued an order on August 16, 2012, consolidating the Brigham Oil & Gas case with the Reep et. al. case for the purpose of determining rights to the shorezone minerals. It is anticipated that both parties will file summary judgment motions requesting that the Court decide, as a matter of law, ownership of the shorezone. The court has scheduled oral arguments for December 17, 2012.
Wilkinson Family v. State of North Dakota
On January 10, 2012, the Wilkinson family filed a suit in state court asserting that they own shorezone minerals in about 200 acres west of Williston. This case is still in the initial pleading stage. The plaintiffs in the Wilkinson Family case did not want this case to be consolidated with the Brigham Oil & Gas and Reep et. al. cases for the summary judgment motions to determine ownership of the shorezone.

NOTE 19 – CONTINUING APPROPRIATIONS

The following information discloses the Board's continuing appropriation authority.

NDCC 15-03-16 Investments. To pay costs related to investments controlled by the Board, including investment management fees, trustee fees, consulting fees, custodial fees, and the cost of capitalized building repairs and renovations.

NDCC 15-04-23 County Services. This statute requires the Board to pay a fee to counties in which the state retains original grant lands for roads and bridges.

NDCC 15-04-24 Grant Land. To pay expenses for trust lands controlled by the Board, including appraisal fees, survey costs, surface lease refunds, weed and insect control costs, clean-up costs, capital improvement rent credits, and expenses necessary to manage, preserve, and enhance the value of the trust asset.

NDCC 15-05-19 Mineral Leases. To pay expenses for minerals controlled by the Board, including appraisal fees, consulting fees, refunds, and expenses necessary to manage, preserve, and enhance the value of the trust asset.

NDCC 15-06-22 Grant Land. This statute allows the Board to pay expenses relating to the sale of original grant land including appraisal fees.

NDCC 15-07-22 Non-Grant Land. To pay expenses for trust lands controlled by the Board, including appraisal fees, survey costs, clean-up or demolition costs, weed and insect control costs, rural fire district reimbursements for fire protection, and expenses necessary to manage, preserve, and enhance the value of the trust asset.

NDCC 15-08-04 Land Surveys. To pay all expenses to ascertain the true boundaries of any tract of land, or to describe or dispose of the same in suitable and convenient lots.

NDCC 15-68-06 Indian Cultural Education Trust. To pay expenses for lands donated under this chapter including survey costs, surface lease refunds, weed and insect control, cleanup costs, capital improvement rent credits, in lieu of tax payments, or expenses necessary to manage, preserve, and enhance the value of the trust asset.

NDCC 57-02.3-07 In Lieu Property Taxes. This statute requires the Board to pay counties in which State property is located in lieu of property taxes.

NDCC 47-30.1-23 Uniform Unclaimed Property Act. To pay all expense deductions under this section.
NOTE 20 – LONG TERM LIABILITIES

Compensated Absences Payable

Department of Trust Lands employees can earn annual leave at a variable rate based on years of service. The amount of annual leave earned ranges from 1 to 2 days per month, and accrued annual leave cannot exceed 30 days as of April 30th of each year. Department of Trust Lands employees earn sick leave at the rate of one working day per month of employment without limitation on the amount that can be accumulated. At 10 years of continuous service, the State is liable for 10 percent of the employee’s accumulated unused sick leave.

The reported liabilities for compensated absences were $175,084 and $152,742 at June 30, 2012 and 2011, respectively. This balance includes the employer’s share of FICA taxes.

NOTE 21 – PENSION PLAN

The Board participates in the North Dakota Public Employees’ Retirement System (PERS) administered by the State of North Dakota. The following is a brief description of the plan.

Defined Benefit Pension Plan:

NDPERS is a cost-sharing multiple-employer defined benefit pension plan covering substantially all classified employees of the Board. The plan provides retirement, disability and death benefits. If an active employee dies with less than three years of credited service, a death benefit equal to the value of the employee's accumulated contributions, plus interest, is paid to the employee's beneficiary. If the employee has earned more than three years of credited service, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the employee's accrued normal retirement benefit, 60 monthly payments equal to the employee's accrued normal retirement benefit calculated as if the employee were age 65 the day before death occurred or monthly payments in an amount equal to the employee's accrued 100% joint and survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the employee's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible employees' who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits that are equal to 25% of their final average salary with a minimum benefit of $100. To qualify under this section, the employee must meet the criteria established by the Retirement Board for being considered totally disabled.
Employees are entitled to unreduced monthly pension benefits equal to 2.0% of their final average salary for each year of service beginning when the sum of age and years of credited service equal or exceed 85, or at normal retirement age (65). The plan permits early retirement at ages 55-64, with three or more years of service.

Benefit and contribution provisions are administered in accordance with chapter 54-52 of the North Dakota Century Code. This state statute requires that 5% of the participant's salary be contributed to the plan by either the employee or by the employer under a "salary reduction" agreement. The Board has implemented a salary reduction agreement and is currently contributing the employees' share. The Board is required to contribute 5.12% of each participant's salary as the employer's share. In addition to the 5.12% employer contribution the employer is required to contribute 1.14% of each participating employee's gross wage to a prefunded retiree health insurance program. The required contributions are determined using an entry age normal actuarial funding method. The North Dakota Retirement Board was created by the State Legislature and is the governing authority of NDPERS. The Board's required and actual contributions to NDPERS for the fiscal years ended June 30, 2012, 2011 and 2010 were $120,464, $89,822, and $78,940 respectively.

NDPERS issues a publicly available financial report that includes financial statements and the required supplementary information for NDPERS. That report may be obtained by writing to NDPERS; 400 East Broadway, Suite 505, PO Box 1657, Bismarck, ND 58502-1657.

**NOTE 22 - POSTRETIRED BENEFITS**

Former employees receiving retirement benefits under the Retirement Plan of Board are eligible to participate in the Retiree Health Benefits Fund, a cost-sharing multiple-employer plan, as administered by the Public Employees Retirement Board. The retired employee is provided a credit toward their monthly health insurance premium under the state health plan based upon their years of credited service. In accordance with NDCC 54-52.1-03.2, the Board reimburses the Retiree Health Benefits Fund monthly for credit received by members of the retirement plan.

The benefits, fully paid by the department, are equal to $4.50 for each of the employee's or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. For this pay-as-you-go plan, total department expenditures for the periods ending June 30, 2012, 2011 and 2010 were $14,995, $12,611, and $11,083 respectively.

**NOTE 23 - RISK MANAGEMENT**

The Board is exposed to various risks of loss related to torts, theft, damage, destruction of assets, errors and omissions, injuries to employees and natural disasters. The Board participates in the following funds or pools:

The Risk Management Fund (RMF) was created in 1995 and is an internal service fund to provide a self-insurance vehicle for the liability exposure of state agencies resulting from the elimination of the state's sovereign immunity. The RMF manages the tort liability of the state, its agencies' employees, and the University System. All state agencies participate in the RMF and their fund contribution was determined using a projected cost allocation approach. The statutory liability of the State is limited to a total of $250,000 per person and $1,000,000 per occurrence.
The Board pays an annual premium to the Fire and Tornado Fund (FTF) to cover property damage to personal property. Replacement cost coverage is provided by estimating replacement cost in consultation with the FTF. The FTF is reinsured by a third party insurance carrier for losses in excess of one million dollars per occurrence during a twelve month period.

The State Bonding Fund currently provides the Board with blanket fidelity bond coverage in the amount of $3,000,000 for its employees. The State Bonding Fund does not currently charge any premium for this coverage.

North Dakota Workforce Safety and Insurance is an enterprise fund of the State of North Dakota; it is a state insurance fund and a "no fault" insurance system covering the State's employers and employees financed by premiums assessed to employers. The premiums are available for the payment of claims to employees injured in the course of employment.

There have been no significant reductions in insurance coverage from the prior year and settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 24 – RESTATEMENT OF FINANCIALS

Subsequent to issuance of the 2012 financial statement, the Office of Management and Budget stated a $30,000,000 State General fund appropriation for the Flood-Impacted Political Subdivision Infrastructure Development Grant program did not transfer during fiscal year 2012. Consequently, the 2012 financial statements were restated by removing the $30,000,000. transfer in from State General fund and cash balance from the Oil and Gas and Flood Impact Grant fund and from the governmental activities. The Independent Auditor's Specific Comments Requested by the North Dakota Legislative Audit and Fiscal Review Committee Year Ended June 30, 2012 was also updated to include the adjustment to the transfer into question number three under Audit Committee Communications.

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Governor of North Dakota
Legislative Audit and Fiscal Review Committee

Board of University and School Lands
Bismarck, North Dakota

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund of the Board of University and School Lands as of and for the year ended June 30, 2012 and have issued our report thereon dated October 31, 2012, except for the items detailed in Note 24 of the financial statements which is dated December 13, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of the Board of University and School Land is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Board of University and School Land’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board of University and School Land’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board of University and School Land’s internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis.
Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above. However, we identified a certain deficiency in internal control over financial reporting described in the accompanying schedule of findings and responses that we consider to be a significant deficiency in internal control over financial reporting as finding 12-1. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of University and School Lands’ financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Governmental Auditing Standards.

The Board of University and School Lands’ response to the finding identified in our audit is described in the accompanying schedule of findings and responses. We did not audit the Board of University and School Lands’ responses and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Governor, Legislative Audit and Fiscal Review Committee, management, and others within the entity and is not intended to be and should not be used by anyone other than these specified parties.

Estep, Labby & P

Bismarck, North Dakota
October 31, 2012, except for the items detailed in Note 24 of the financial statements which is dated December 13, 2012.
12-1 Unclaimed Property Penalties

Condition: While the Board utilizes third-party contract auditors to address compliance issues out-of-state, currently there is no audit function in place in the Unclaimed Property Division to ensure North Dakota businesses are appropriately submitting unclaimed property and that penalties are appropriately assessed for noncompliance. The Board has compliance and audit policies and procedures in place; however they have no employee to currently fill this role internally.

Criteria: North Dakota Century Code 47-30.1-34 requires that penalties should be assessed and collected on entities that willfully fail to report or deliver property to the Department in accordance with the Uniform Unclaimed Property Chapter. As administrator of this fund, the North Dakota Board of University of School Lands is responsible for this compliance requirement.

Cause: Due to the limitations of the appropriated budget, the Board does not have an employee in place to perform audits and encourage North Dakota businesses to comply with North Dakota unclaimed property laws. The Board uses contracted auditors for out of state businesses but per North Dakota Century Code 47-30.1-30, the Board is not allowed to utilize outside auditors for this function with North Dakota entities. This position is necessary to ensure the Board is collecting all unclaimed property within the guidelines listed in the North Dakota Century Code, which is critical for the Department to properly assess and enforce penalties for willful failure to comply.

Effect: Inadequate staffing over these areas could result in underreporting of property due citizens, a misstatement of the financial statements and the loss of penalty income the Board would be eligible to receive.

Recommendation: We recommend that the Board find a way to implement this audit function with North Dakota entities to ensure that all unclaimed property is received and penalties properly assessed and collected for those businesses not in compliance.

Management's Response: The Board concurs with the recommendation and will work towards implementing a more effective and efficient unclaimed property audit and compliance program to assist North Dakota businesses in complying with unclaimed property statutes. The Commissioner intends to request an unclaimed property compliance FTE during the upcoming legislative session.
Independent Auditor's Specific Comments Requested by the
North Dakota Legislative Audit and Fiscal Review Committee
Year Ended June 30, 2012

The Legislative Audit and Fiscal Review Committee requires that certain items be addressed by
independent certified public accountants performing audits of State agencies. The items and our responses
regarding the June 30, 2012 audit of the Board of University and School Lands are as follows:

Audit Report Communications

1. What type of opinion was issued on the financial statements?

   Unqualified

2. Was there compliance with statutes, laws, rules and regulations under which the Agency was created
   and is functioning?

   See finding identified on page 47.

3. Was internal control adequate and functioning effectively?

   See finding identified on page 47.

4. Were there any indications of lack of efficiency in financial operations and management of the
   Agency?

   No

5. Was action taken on prior audit findings and recommendations?

   Yes, finding from prior year was addressed and corrected.

6. Was a management letter issued? If so, provide a summary below, including any recommendations
   and the management responses.

   Yes, a separate management letter has been issued and is attached following page 50. The
   management letter identifies the passed audit adjustments that were identified during the audit. There
   were no additional findings or recommendations noted in this letter.
Audit Committee Communications

1. Identify any significant changes in accounting policies, any management conflicts of interest, any contingent liabilities, or any significant unusual transactions.

   None

2. Identify any significant accounting estimates, the process used by management to formulate the accounting estimates, and the basis for the auditor’s conclusions regarding the reasonableness of these estimates.

   None

3. Identify any significant audit adjustments.

   The passed (inmaterial) audit adjustments are detailed in the management letter following page 50.

   The Oil and Gas and Flood Impact Grant Fund and governmental activities had to be updated to remove the cash and transfer in from the State General Fund per communication from ND Office of Management and Budget.

4. Identify any disagreements with management, whether or not resolved to the auditor’s satisfaction, relating to financial accounting, reporting, or auditing matter that could be significant to the financial statements.

   None

5. Identify any significant difficulties encountered in performing the audit.

   None

6. Identify any major issues discussed with management prior to retention.

   None

7. Identify any management consultations with other accountants about auditing and accounting matters.

   The agency does not consult with any other accountants regarding auditing or accounting matters.

8. Identify any high-risk information technology systems critical to operations based on the auditor’s overall assessment of the importance of the system to the agency and its mission or whether any exceptions identified in the six audit report questions addressed above are directly related to the operations of an information technology system.

   The State Lands Information Management System (SLIMS) is a database application that supports the Board’s business process over management of state lands, mineral and surface leases, royalties, investments, grants management, and general ledger accounting. There were no exceptions identified that were directly related to the SLIMS database application.
This report is intended solely for the information and use of the Board of University and School Lands, Legislative Audit and Fiscal Review Committee, and management, and is not intended to be and should not be used by anyone other than these specified parties.
