The Board of University and School Lands will offer at public auction to the highest bidder, oil and gas leases on the land described above. Leases will be issued according to the rules and regulations established by the Board. Bidding will be on the bonus per mineral acre; the minimum bid is \$1.00 per mineral acre. Leases are for a five-year term. The successful bidder must pay for the costs of publishing the notices of sale, one year's rental and the bonus no later than 10 days after the end of the sale. Any and all bids may be rejected at any time prior to issuance of a lease. Sight drafts will not be accepted. Make checks payable to the North Dakota Department of Trust Lands.

Individuals with disabilities needing assistance or special services, please call (701) 328-2800 at least one week prior to the sale.

Royalty Rate

By actions of the Board of University and School Lands, all leases located within the following counties will be leased at a 3/16 royalty rate:

- Billings
- Divide
- Dunn
- Golden Valley
- McKenzie
- Mountrail
- Williams

In all other counties, where leases will be offered, the lease will carry a 1/6 royalty rate.

- P** Indicates leases shall contain a stipulation indicating a paleontological resource has been identified on this tract and may need to be protected. At least 20 days prior to any surface disturbance, our lessee shall notify the Department of Trust Lands of the intended surface disturbance. The Commissioner of University and School Lands will consider advice from the Historical Society and Geological Survey to determine what, if any, protection shall be necessary under Sec. 85-06-06-12 of the Board of University and School Lands' rules and regulations.
- S** This tract is within an area identified as essential wildlife habitat. The lessee or lessee's operator must contact the Commissioner prior to any surface activity. Operational mitigation measures to reduce impact, including timing restrictions, location adjustments and reduced or restricted surface occupancy may be required.

Several Paleocene age formations occur at or near surface in Adams, Billings, Dunn, Golden Valley, Hettinger, McKenzie, Slope and Stark County. Vertebrate, invertebrate, and plant fossils have been found in these formations elsewhere in North Dakota. Lease holders of tracts in these counties should be aware of this and contact the North Dakota Geological Survey if they discover fossils during their activities.

NOTES:

All tracts within a section of land will be offered together. The successful bidder will have the option to take all tracts or select specific tracts, with the exception of "river" tracts. The unselected tracts will again be offered. A separate lease will be issued for each tract.
